This application is in condition for allowance except for the following formal matters:

Rule 173(c) requires a statement of the status of all claims and an explanation of support in the specification for all changes made to the claims, including new claims.

Rule 173 (c) is still not complied with. To say, for example, that new claims 19, 26, 36, 45, and 49 have support “throughout the specification and drawings” does not specify the support. All of the features of all the new dependent claims must also be shown to have specific support.

Since claim 16 was amended by the certificate of correction it must be changed to read “T-shaped retainers are asymmetrical” with no underlining or bracketing for these words.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
